

WORK STATION EQUIPMENT

Balancer

Weight range 0,4-55kg

Swedish Cable Trolleys AB
CIBES

Sheet 40-100 2016

High-quality Balancer with GS marking are available as Zero gravity Balancer, Retractor Balancer and Retractors with Roller blind stops. Safety chain is included.

Zero gravity, Balancer

Kromer Balancers are characterized by the conical shape of their cable drum. These Balancers have an almost constant retraction force independent of the extension of the load-carrying cable. As a result, the working load remains suspended in the same position after use. Besides, no increasing retraction force acts upon the operator's hand - a significant advantage, particularly for delicate,

high-precision tasks. Therefore, using balancers minimizes fatigue and facilitates your work over extended periods of time as well.

Balancer, Retractor

These Balancers are manufactured so that the resistance force is in direct proportion to the length of the extended cable. This means that the load automatically returns to the original position after use, which frees work space for other tools or equipment. The low increase in force when pulling out the cable ensures precision in the work. (Also available with Roller blind stop).

Balancer, Zero gravity

Article. no.	Load capacity kg	Max. cable length mm	Weight kg
40 701	0,4 - 1,2	1500	1,3
40 702	1,2 - 2,6	1500	1,4
40 703	2,6 - 3,8	1500	1,5
40 704	3,8 - 5,2	1500	1,5
40 705	5,2 - 6,5	1500	1,5
40 706	3,0 - 5,0	2000	2,9
40 707	4,5 - 7,0	2000	3,1
40 708	6,0 - 10,0	2000	3,2
40 709	9,0 - 14,0	2000	3,4
40 710	13,0 - 17,0	2000	3,6
40 711	16,0 - 21,0	2000	3,8
40 712	15,0 - 25,0	2000	7,8
40 713	25,0 - 35,0	2000	8,9
40 712	35,0 - 45,0	2000	9,5
40 713	45,0 - 55,0	2000	9,75

The cable is easily replaced in 30 sec

Balancer, retractor

Article. no.	Load capacity kg	Max. cable length mm	Weight kg
40 801	0 - 0,5	1600	0,5
40 802	0,3 - 1,5	1500	0,5

Balancer for heavier weights are available on request.

Balancer, retractor (Roller blind stop)

Article. no.	Load capacity kg	Max. cable length mm	Weight kg
40 901	0,5 - 2,0	2500	0,75
40 902	1,5 - 3,0	2500	0,95

Balancer for heavier weights are available on request.
